Index

Use of the index

This index gives references to section numbers. The most important section numbers in a reference are printed in bold. For a large group of concepts main references are used; groups of concepts that are related to each other have been brought together to enable the reader to obtain a better insight into the contents of the NeR. These are summed up below. If a key word is not given in the alphabetical index, it is recommended to search under a relevant main reference.

The following main references have been included:

- 'special regulations'
- 'source'
- 'concentration'
- 'inspection'
- 'emission'
- 'odour'
- 'mass flow'
- 'measurement'
- 'NeR'
- 'incineration'
- 'laws and regulations, policy and plans'

The definitions and descriptions of the concepts are given in Appendix 4.2.

A

acrylonitrile containing plastics, production of **3.3 E5**
acrylonitrile, production of **3.3 E4**
acrylonitrile-based plastics, production of **3.3 E5**
aerosol
-, secondary **2.10**
air pollution, definition **4.2**
air quality limit value **2.2.1**
air quality standards (limit value, target value, target level) **2.2.1**, 4.3
ALARA (see also 'Best Available Technique') **2.1.3**, 2.9, Ch 1 step 6
aluminium, production of primary **3.3 D4**
ammonia plants **3.3 E8**
ARE (Emission Guidelines Advisory Group) **0.5**
aromatics and flavourings industry **3.3 B9**
asphalt mixing installations **3.3 C5**
averaging rule **2.4.3**
averaging specifications (see 'permit')
averaging times (see 'concentration')

B

bakeries, large **3.3 B3**
BEES (Decree on emission standards for furnace installations) **2.2.1**, 3.7.2
Best Available Technique
-, and KWS2000 **3.4**
-, definition **4.2**
-, departure on duly stated grounds **2.1.4**
-, general **Ch 1**
biogas, processing of (incl. flares) **3.3 G1**
BLA (Decree on air emissions from waste incineration) (see 'laws')
branch organisations (see 'odour')
bread bakeries, large **3.3 B3**
breweries **3.3 B10**

C

calibration
-, definition **4.2**
-, general **3.7.3**
carbon anodes, production of **3.3 Z2**
carcinogenic substances
-, definition **4.2**
-, general **3.2.2**
-, inspection method (see 'inspection')
-, with threshold **2.3.7**, 3.2.2
-, without threshold **2.3.7**, 3.2.2
cast iron and steel, smelting installations for **3.3 D5**
category 1/2/3 companies (see 'odour')
certification (see 'measurement')
chips, production of **3.3 B8**
chloride, production of **3.3 E2**
classification of substances **3.2.4**, 3.2.5, 2.3.3
claus installations (sulphur production and cleaning system) **3.3 E6**
coarse ceramic industry **3.3 C2**
cocoa bean processing industry **3.3 B6**
coffee roasting houses **3.3 B7**
coking plants **3.3 E1**
companies,
-, category 1/2/3 companies (see 'odour')
-, company (industry-wide)
-, environmental plan (BMP) **2.2.2**
complaints registration (see odour)
compliance (see also 'cost effectiveness')
-, terms **2.9.4**
composting
-, of household organic waste **3.3 G4**
-, of vegetable waste **3.3 G2**
compulsory investigation **2.8.4.8**
compulsory minimisation
-, definition **4.2**
-, general **2.3.7**
concentration
-, averaging provision **2.4.3**
-, day average **3.7.3**
-, definition of day average **4.2**
-, emission (see 'emission')
-, half hour average **3.1**, 2.4.2, 3.7.2
-, immission (see 'air quality standard')
cost effectiveness
-, definition **4.2**
-, general **2.1.5**
-, method **2.11**, 4.13
-, reference values **2.11**
costs
-, depreciation period **2.5.4**
-, unreasonable costs **2.4.6**
covenants (see 'laws')
crematoriums **3.3 F3**
cumulation rule
-, definition **4.2**
-, examples **2.3.4**, 2.3.6
-, general **Ch 1 step 4**

D

day average (see 'concentration')
Decree on emission standards for furnace installations (BEES) **2.2.1**, 3.7.2
Decree on VOCs and solvents **2.8.1.3**
definitions **4.2**
departure on duly stated grounds **2.1.4**, Ch 1 step 1
depreciation period (see 'costs')
dilution of waste gas flows (see 'waste gases')
dispersion models for air pollution **2.2.1**
drift sensitive goods and dispersion class **3.5.1**

E

elevators (see 'fugitive emission')
emission
-, actual emission situation **Ch 1 step 4**
-, continuous emission **2.4.2**
-, discontinuous emission **2.4.2**
-, emission, definition **4.2**
-, emission features **2.4.2**
-, emission limit values **2.2.1**
-, emission limitation and reduction **2**
-, emission pattern **3.7.3**
-, emission peaks **2.4.4**
-, emission registration **3.2.2**
-, emission relevant parameters (ERP) (see 'inspection')
-, emission standards **2.5.1**, 3.2
-, emission standards and cumulation rule (see 'cumulation rule')
-, emission standards as upper limit **2.3.6**
-, emission standards, definition **4.2**
-, emission standards for carcinogenic substances **3.2.2**
-, emission standards for extremely hazardous substances **3.2.1**
-, emission standards for gaseous and vaporous inorganic compounds **3.2.4**
-, emission standards for inorganic compounds **3.2.4**
-, emission standards for inorganic compounds in particulate form **3.2.4**
-, emission standards for organic compounds **3.2.6**, 3.4
-, emission standards for particulates (general) **3.2.3**
-, emission standards for particulates with compulsory minimisation **3.2.1**, 3.2.2
-, emission standards for volatile organic compounds **2.8.2.2**
-, failure emission **3.7.2**
-, falling above the emission standards **2.1.4**
-, fluctuating emission (see 'emission')
-, fugitive emission (see 'fugitive emission')
-, incidental emission **2.4.2**, 2.4.4
-, incineration emission (see 'incineration')
-, more stringent emission standards **2.1.4**
-, non-regular (see 'exclusion provision')
-, peak **2.4.4**
-, process emission **2.2**
-, product-related emission standards (PRE standards) **2.5.3**, 2.7
-, quantification of emissions **2.3.5**
-, regular emission **2.4.2**
-, residual emission **2.3.7**
-, simultaneity of emissions **2.3.6**
-, untreated emissions **2.3.1**
-, variable emission **3.7.3**
Emission Guidelines Advisory Group (ARE) **0.5**
environmental management system (see 'laws')
ERP (see 'inspection')
exception, definition **4.2**
exclusion provision **2.4.1**, Ch 1 step 4
extremely hazardous substances
-, definition **4.2**
-, general **2.3.7**

F

failure emission **3.7.2**
fat rendering plants (see 'meat industry') **3.3 B5**
feedingstuff industry (see 'livestock feed compounders')
fibres, production of mineral **3.3 C3**
fibrous substance **3.2.4**
flow rate, definition **4.2**
fodder drying plants **3.3 A2**
fugitive emission
-, drift sensitive particulates **3.5.1**
-, general **2.3.5**
-, of particulates **3.5.1**
-, of particulates at elevators **3.5.1**
-, of particulates at grabs **3.5.1**
-, of particulates at hoppers **3.5.1**
-, of particulates during loading onto lighters **3.5.1**
-, of particulates during mechanical transport **3.5.1**
-, of particulates during pretreatment and separation **3.5.1**
-, of particulates during storage **3.5.1**
-, of particulates during transport and storage with special components **3.5.1**
-, of particulates during transport, loading and unloading **3.5.1**
fugitive source
-, definition **4.2**
furnace installations (see 'incineration' and 'laws')

G

GAO (General Administrative Order)
-, general **4.9**, Ch 1 step 2
-, with respect to air quality **2.2.1**
-, with respect to emissions **2.2.1**
gas emissions from landfill sites, processing of (incl. flares) **3.3 G1**
grass drying plants (see 'fodder drying plants')
glass, production of **3.3 C4**

H

half hour average (see 'concentration')
hedonic scale **3.6.3**
helpdesk **0.5**
hoppers (see 'fugitive emission')

I

immission concentration **4.3**
incineration
-, communal waste water treatment silt **3.3 F6**
-, crematoriums **3.3 F3**
-, flares **3.3 G1**
-, furnace installations (BEES) **2.2.1**
-, installation for thermal reclamation of metal from cables **3.3 F1**
-, pyrolysis **3.3 F4**
-, thermal cleaning of commodities **3.3 F2**
-, thermal soil clean-up **3.3 F5**
-, uncontaminated wood parings **3.3 F7**
InfoMil
-, general **0.5**
-, information and helpdesk **0.5**
inorganic substances
-, gaseous and vaporous **3.2.4**
-, inspection method (see 'inspection')
-, particulate **3.2.4**
inspection (see also 'measurement')
-, compulsory inspection **2.2.5**
-, continuous inspection **3.7.2**
-, emission relevant parameter (ERP), definition **3.7.2**, 4.2
-, focused on means **3.7**
-, focused on target **3.7**
-, inspection frequency, definition **4.2**
-, inspection method for gaseous and vaporous inorganic compounds **3.7.2**
-, inspection method for inorganic compounds in particulate form **3.7.2**
-, inspection method for odour **3.7.2**
-, inspection method for organic compounds **3.7.2**
-, inspection method for particulates (general) **3.7.2**
-, inspection method for substances with compulsory minimisation **3.7.2**
-, inspection method **2.5.5**, 3.7.2

-, inspection method, selection **3.7.2**
-, inspection regime **2.5.5**, 3.7.2, Ch 1 step 7
-, inspection system, selection of **3.7.2**
-, inspection through measurement of emission relevant parameters (ERP) **2.5.5**, 3.7.1, 3.7.2
-, inspection through measurement **3.7.3**
-, qualitative inspection **3.7.2**
-, qualitative inspection **3.7.2**, 3.7.3
-, separate inspection **3.7.3**, 3.7.4
-, start of inspection **3.7.2**
inspection of means
-, definition **4.2**
-, general **3.7**
installation (see 'permit')
installations for thermal reclamation of metals from cables and corresponding utilities **3.3 F1**
integral consideration **2.7**
iron and steel, foundries and smelting plants **3.3 D3**
iron, production of pig, (blast furnaces) **3.3 D2**
iron, production of pig, (pelletising) **3.3 D1b**
iron, production of pig, (sintering) **3.3 D1a**

J

K

KWS2000 (see 'VOC') **2.8**, 3.4

L

laws and regulations, policy and plans
-, Air Pollution Act (Wlv) **2.2.1**
-, BLA (Decree on Air Emissions from Waste Incineration) **2.2.1**
-, covenants **Ch 1 step 2**
-, environmental management systems **2.5.5**
-, Environmental Protection Act (Wm) **2.1.3**, 2.2.1
-, GAO (see 'GAO')
-, general **2.2.1**
-, industry-wide environmental plan (BMP) **2.2.2**
-, integral environmental task setting (IMT) **2.2.2**
-, KWS2000 **2.8**, 3.4
-, National Environmental Policy Plan (NMP) **2.2.2**, 2.8.3.3, 3.4.9
-, national policy in respect of odours **4.4**
-, target group policy **2.2.2**
-, VOTOB **3.4.6**
leakage and spill (see 'fugitive emission')
leather industry **3.3 Z3**
legal aspects and appeal options **Ch 1 step 8**
legislation (see 'laws')
livestock feed compounders **3.3 A3**
loading and unloading (see 'fugitive emission')
loading onto lighters (see 'fugitive emission')

M

manure processing plants **3.3 A1**
market-ready product, definition **4.2**
mass flow
-, and cumulation rule (see 'cumulation rule')
-, definition of licensed **4.2**
-, definition **4.2**
-, limit- (see 'mass flow limit')
-, normative (see 'untreated mass flow')
-, quantification **2.3.5**
-, reduction as target **2.2.1**
-, treated and/or licensed **3.7.2**
-, untreated (see 'untreated mass flow')
mass flow check value
-, definition **4.2**
-, general **3.7.2**
mass flow limit (see also 'untreated mass flow')
-, definition **4.2**
-, general **2.3.5**, 2.5.5, Ch 1 step 4
measurements (see also 'inspection')
-, continuous measurement **3.7.3**
-, continuous measurement, adjustment **3.7.3**
-, continuous measurement, calibration **3.7.3**
-, continuous measurement, processing of measuring data **3.7.3**
-, individual measurement **3.7.3**
-, individual measurement, definition **4.2**
-, individual measurement, duration of sampling **3.7.3**
-, individual measurement, number of samples taken **3.7.3**
-, individual measurement, representativeness and planning **3.7.3**
-, measurement frequency **3.7.3**
-, measurement planning **3.7.3**
-, measurement result and inaccuracy (reliability) **3.7.3**
-, measurement result and interpretation **3.7.4**
-, measurement site **3.7.3**
-, measuring inaccuracy, definition **4.2**
-, measuring institute, qualification and certification **3.7.3**
-, measuring method **3.7.3**
-, measuring method, definition **4.2**
-, reference values **3.7.3**
-, reporting of measurement values **3.7.4**
-, standardised measuring methods **4.7**
measures
-, alternative **2.8.4.5**
-, certain **2.8.3.5**
-, certain measures at installation level **2.8.4.2**
-, conditional **2.8.3.5**
-, conditional measures at installation level **2.8.4.3**
-, measure at sector level **2.8.4.4**, 2.8.3.5
-, uncertain **2.8.3.5**
meat industry **3.3 B5**
mineral fibres
-, production of **3.3 C3**
mixture of substances (see 'cumulation rule')

N

National Environmental Policy Plan (NMP) (see 'laws')
national model **2.2.1**
natural gas extraction installations **3.3 E11**
NeR
-, field of application **Ch 1 step 1**
-, goal **0.1**
-, information **0.4**
-, status 0.2
-, updating, addition to and subscriptions **0.5**
NeR Advisory Group **0.5**
NeR Authorisation Committee **0.5**
nitric acid plants **2.2.1**
nitrogen-based fertiliser, production of **3.3 E7**
nuisance classification system **3.6**
nuisance level **3.6.1**, 2.1.4
nuisance questionnaire (see 'odour investigation methods')

O

odour
-, category 1/ 2/ 3 companies **4.4**
-, compliance term **2.9.4**
-, concentration standard **4.4**
-, concentration value, definition **4.2**
-, determination of acceptable odour nuisance level **3.6.1**, 2.9.2
-, discontinuous or fluctuating odour source **2.4.2**, 3.6.2
-, European odour unit (see odour unit) **2.9.1**
-, investigation methods **3.6.2**, 3.6.3
-, new installation **3.6.2**
-, odour-sensitive object **3.6.1**
-, odour nuisance and limitation of odour nuisance **2.9**, 3.6
-, odour unit
-, special regulations relating to odour **3.3**

odour unit **2.9.1**
olfactometric investigation (see 'odour')
operating time **2.4.2**
organic compounds
-,inspection method (see 'inspection')
-, particulate, gaseous and vaporous form **3.2.6**

P

particulates (in general sense)
-, coarse particulates **2.10**
-, definition of respirable particulates **4.2**
-, fine particulates **2.10**
-, fugitive emission (see 'fugitive emission')
-, general **2.10**
pastry bakeries (see rusk and pastry bakeries) **3.3 B4**
peak emissions (see 'emission')
permit
-, general **Ch 1**
-, preamble **Ch 1 step 8**
-, refusal **Ch 1 step 7**
-, specifications **2.5**, 2.9.3, Ch 1 step 7
pesticides, production, formulation, packaging **3.3 E9**
petroleum extraction installations **3.3 E11**
plans (see 'laws')
PM-10 fraction **2.10**
point source
-, definition **4.2**
-, emission standards per (see 'emission')
-, general **2.3.5**
policy (see 'laws')
pollutants **4.2**
potato processing industry **3.3 B8**
process emissions, definition **4.2**
process unit, definition **4.2**
process-integrated measures **2.1.1**, Ch 1 step 4, Ch 1 step 5
PVC production; suspension polymerisation **3.3 E3**
pyrolysis processes **3.3 F4**

Q

R

reference values **2.11**
representativeness **3.7.3**
respirable particulates, definition **4.2**
room ventilation **2.3.5**
rusk and pastry bakeries **3.3 B4**

S

sewage treatment installations **3.3 G3**
silicon carbide, production of **3.3 E10**
silt, incineration of communal and industrial waste water **3.3 F6**
situation
-, exceptional **2.1.4**
-, existing and new (odour) **2.5.4**
slaughterhouses (see 'meat industry')
smelling squad measurements (see 'odour investigation methods')
soil clean-up, installations for thermal **3.3 F5**
solvent accounting system **2.8.2.4**
source
-, definition of distinct source **4.2**
-, definition **4.2**
-, existing **2.5.4**
-, fugitive (see 'fugitive source')
-, minor **2.4.6**
-, point (see 'point source')
-, selection of **2.3.4**
-, evacuation at the **2.3.5**
special regulations
-, definition **4.2**
-, for processes and/or industries **3.3**, 2.6
-, for VOC emissions **3.4**
-, general **2.9.5**, Ch 1 step 3
-, summary **3.3**
specifications (see 'permit, specifications')
standard conditions, definition **4.2**
standard volume, definition **4.2**
standards (see 'measurements, standardised measuring methods')
starch and starch derivatives plants **3.3 B2**
start and stop procedures **2.4.5**
steel,
-, production of oxygen steel **3.3 D3**
storage (see 'fugitive emission')
substance category **3.2.3**
substance class **3.2**, 2.3, Ch 1 step 4
substances
-, carcinogenic (see 'carcinogenic substances')
-, classification **2.3**, 3.2, Ch 1 step 4
-, inorganic (see 'inorganic compounds')
-, mixture of (see 'cumulation rule')
-, organic (see 'organic compounds')
sugar factories **3.3 B1**
sulphur (in claus installations), production of **3.3 E6**
surface treatment of metals using nitric acid **3.3 Z1**

T

target group policy (see 'laws')
target level, air quality **4.3**
target specifications (see 'permit')
target value, air quality **4.3**
thermal cleaning of commodities **3.3 F2**
traffic (air quality)
transhipment **2.3.2**
transition period (see 'compliance')
transport, internal (see 'fugitive emission') **2.3.2**
treatment installations, sewage **3.3 G3**

U

untreated mass flow (see also 'mass flow limit')
-, cumulation rule (see 'cumulation rule')
-, definition **4.2**
-, general **3.7.2**

V

ventilation (see 'room ventilation' and 'evacuation at the source')
verifying measurements **3.7.5**
VOC Directive **2.8.2**
volatile organic compounds (VOC) **2.8**
-, measures **3.4**
-, odour **2.9**
VOTOB covenant **3.4.6**

W

waste (see 'incineration' and 'composting')
waste gases
-, combination and dilution **3.1**
-, definition **4.2**
-, parameters **3.7.2**
wood, incineration of uncontaminated parings **3.3 F7**
woodworking and production of wood fibre and particleboard **3.3 C1**

X

Y

Z
